WASHINGTON LETTER.

From our Special Correspondent.

WASHINGTON, July 12, 1895.

Spain now has her turn at the demand business. She isn't making a demand that the United States shall apologize, but her minister has been instructed to ask that this government will officially disavow the sentiments alleged to have been expressed by Ambassador Eustis in an interview published by a Paris newspaper. Ambassador Eustis has already repudiated that alleged interview, which he branded as a fake, but that has no effect upon the Spanish minister, who has gone to Massachusetts for the purpose of presenting his demand to Secretary Olney in person, not caring to deal with the subordinate who is in charge of the State department. The Spanish minister probably knows, in common with everybody else, that Ambassador Eustis never expressed, for publication, the sentiments credited to him in that interview, but he doubtless thinks it a good opportunity to get the U. S. government to officially say that it does not sympathize with the Cuban rebellion, or something to that effect. If it be true that Secretary Olney has been listening to the seductive buzzing of the presidential bee the Spanish minister may be sorry he made that demand, as the Secretary may see in it an opportunity to give his candidacy a boost by making the American eagle let out a scream or two. It is more probable, however, that the denial of the interview by Ambassador Eustis will be considered a sufficient answer to the demand. Spain would do well to be very careful about such demands. This government is, of course, neutral, but there is little doubt that an overwhelming majority of the people in this country sympathize with the Cubans and would at a pinch help them throw off Spanish rule.

Ex-Secretary of State Foster, who has just returned from China, where it is said he was paid the modest fee of \$250,000 for acting as diplomatic adviser to the Chinese government in the peace negotiations with Japan, brought some real political news to Washington, if what he says about President Harrison can be depended upon. He is Mr. Harrison's close personal and political friend and was his Secretary of State after Mr. Blaine resigned. For that reason what he says has been received with ready credence on the part of many who have believed directly to the contrary up to this time. Mr. Foster said: "I do not know how the Indiana delegation will stand. Of course if Mr. Harrison were a candidate they would go to the convention and pledge to him for as they are loyal to his interests and would like to see him in the White House again. But Mr. Harrison is not a candidate. He is making no effort for the nomination. If the feeling throughout the party in favor of Mr. Harrison should be so strong as to make it evident that the general desire was for his renomination, then, of course, the delegation from Indiana would fall in line; but, as matters now stand, with no candidate from their own state, I think the Indiana delegation will go to the convention without any pronounced preference. Some of them will be of the Republicans in the state are for Allison, some for McKinley, others for Reed, if the inclination to be taken as an indication of their probable action." It may be that Mr. Foster really thinks as he talks, but some of the shrewdest politicians who come to Washington, including members of all parties, believe that Mr. Harrison is pulling all the wires in his reach to get that nomination.

The impression in Washington, regardless of opinions on the silliness question, is that the proposition for a joint debate on the silliness question made by ex-Congress-

man Warner as president of the American Bimetallic League, to ex-Secretary Fairchild, in his official capacity of chairman of the Committee on sound currency of the New York Reform Club, will not be accepted.

For the first time the Chinese question is locally a live one in Washington. The Chinese colony has been increasing so rapidly that some of them have had a struggle to live and play fan tan. Some of the loafers of these sought to boom the laundry business by cutting the prices to the extent of about 20 per cent. This stirred up the rest of them and it is said that Chinese high-binders have tried to kill several of the price cutters, but that's all among themselves. The question has been brought home to the community by the issuing of an appeal by the big steam laundries requesting the people not to patronize the Chinamen, and stating that if they do damages of American laundry employees will have to be cut.

INTO SPACE.

Dr. Jones Leaped and Lighted on Stones That Broke His Bones.

LEXINGTON, Ky., July 11.—Dr. Edward Jones, an inmate of the Eastern Kentucky insane asylum, met with a tragic death at that institution today. His attendant left him in the room about six o'clock this morning and went out to get his breakfast. He had hardly reached the stairway before the demented doctor had thrown up the window and was posed upon the sill looking toward the ground fifty feet below. With a wild yell he leaped into space and in a minute later was lying upon the brick sidewalk grouting in the agony of his wounds, while the blood gushed from a gash in his skull at the base of his brain. His cries attracted the attention of several attendants, who rushed to the scene. He was removed to the asylum hospital, where it was found that in addition to the fracture of the skull both his left leg and arm had been broken. While his wounds were being dressed he talked in a wild, rambling way about everything under the sun but his reason for so rash an act. An hour or two later he became unconscious, and remained so, dying shortly past noon.

Dr. Edward Jones was one of the best known physicians in the state. Born at Paris, Kentucky, sixty years ago he became a surgeon in the confederate army, serving in Breckinridge's brigade. At the conclusion of the war he became assistant superintendent of the Eastern Kentucky asylum in this city, and remained in that capacity, until with Dr. Silas Evans, he established High Oaks Sanitarium ten years ago.

Two years ago his close confinement to the duties of superintendent of the sanitarium caused softening of the brain, and later on loss of mind. He was then placed in the asylum, where he remained until his death.

Shoes Made Of Paste.

"For years," said a Maine manufacturer, "shoes of a cheap grade have been made of what is known as leatherboard. It is a compressed paste. There is a factory in my state which turns out tons of it every month. Many of these shoes are sent to Central and South America, and, as a matter of fact, thousands are sold here. As long as the weather is dry they wear first-rate, but when you strike a rain you are gone almost surely. Two settings, and you want to look out. When you visit in your summer shoes be sure they are what you want. Leather is expensive, and you can't cover your feet with it for a trifle."

A little boy said that he always gave everybody in the house candy when he had any, but he would rather give it to his mamma, because she always said: "No, thank you."

RESERVATIONS TO BE OPENED.

Secretary Smith Forced to Act in the Nez Percés Case.

WASHINGTON, D. C., July 8.—Senator Dabbs, of Idaho, spent some time with Secretary Smith today insisting that the Nez Percés reservation be open to settlement. The last congress approved an agreement with the Indians leading up to the opening to settlement of that reservation, which will throw open over 500,000 acres of the best land in northern Idaho. There are many thousands of would-be settlers located on the border, who expect the opening daily. It is provided that the Indians be paid \$1,600,000 for their land, the \$600,000 to be paid when the country is opened to settlement and the remaining \$1,000,000 in three equal annual installments.

Secretary Smith admits having delayed the opening as much as possible, his plan being to keep the money in the treasury. For this reason the settlers were delayed, and now it happens that the Secretary has been informed that unless he complies with the plain meaning of the law, legal steps will be taken to force his compliance. This would be a novel procedure and one that the Secretary would not enjoy, as it seems, for he made the promise today that the reservation should be open to settlement by the 1st of August. For some time everything has been in readiness to open the reservation, but owing to the administration's plan to make a good financial showing in the last fiscal year as possible, the final departmental action has been delayed. It is now assured that the reservation will be opened to settlement within the next three weeks.

The Idaho senators are also pressing for departmental action in the Fort Hall tangle. The agreement with the Indians leading up to opening that reservation of 120,000 acres to settlement was approved by the last congress, but so far the Secretary of the Interior has delayed allotments and all departmental work. It is expected, however, to have this reservation opened to settlement by the 1st of October next.

LIKE AN ANIMAL.

An Indiana Man Who Thinks God Commanded Him to Live in Solitude.

PETERSBURG, Ind., July 10.—A hermit dwells in the Patoka bottoms, near the railroad station called Heyden, a few miles below this place. He lives all alone and disregards the advantages of civilization. With no one to comfort him, with nothing with which to enjoy the comforts of life he whies away his time in the wilderness of the lonely woods. Some time ago a number of pleasure seekers went to Heyden to enjoy a day's fishing, and as some of the gentlemen of the party were making their way through a dense growth of underbrush near the river they made the startling discovery of a wild-looking man lying on the ground. His very inadequate shelter consists only of a few boards placed on four posts, about five or six feet in height. There was no siding or anything which would keep out the winter's snows or summer's rains, and the only furniture which it contained was a small stove, a skillet and two pieces of old dirty carpet. When questioned by one of the men he said his name was Bill Cox, and that he was born and raised in Gibson county, Indiana. He was a horrible looking creature, with long hair all over his face, and apparently about 45 years of age.

His complexion was dark and swarthy, and showed that it had been browned by the blasts of winter as well as by the sunshine and breeze of summer. His two-nails looked like the hoofs of some wild animal, and his finger-nails were on the same order.

He is an American in natu-

ally, and has never been married. Following is the story he told of himself to one of the party: He said that a few years ago he moved to Kansas with some of his relations with the expectation of making that state his future home. They had been installed in their new home but a short time, when one by one the family began to die, until none were left but him. Upon awakening one morning, he says, he heard some mysterious voices whispering in his ear. It told him his life was in great danger, and for him to leave the state at once. The next day he left Kansas and wandered East until he found this secluded spot in the Patoka bottoms, where he has dwelt ever since subsisting on roots, herbs, berries, insects, etc. He said, in conclusion he thought his hermit way of living was a punishment sent upon him in atonement for some sin he has committed, yet he says he cannot change his course, as God commands it, and he must obey these commands. He has no education at all, and cares nothing for civilization or society, his highest ambition being to obtain enough food to live on, and to be left alone to enjoy the quiet and solitude of his lonely habitation.

A WOMAN OF NERVE.

Mad Dog Captured and Chloroformed by Miss West, of Washington.

WASHINGTON, D. C., July 8.—A young woman made a clever capture of a mad dog here yesterday afternoon. She is Miss Roberta West, the pretty matron of the Emergency Hospital. The dog, a full grown fox terrier, had run into the hospital yard, and was rushing hither and thither to find his way out again. The black janitor ran for him with a broom, but on seeing his foam-flecked mouth fled into the hospital. Miss West was at the window watching the Sunday-school children pass on the walk just beyond the fence through which the mad dog was trying to break. Spying the dog, she turned and grabbed a sheet from a bed and ran into the yard. The dog saw her and rushed for her. She took hold of the two upper ends of the sheet and let the lower end fall to the ground just before the dog had reached her. Then stepping quickly back as the dog's feet touched the sheet, she lowered her end, bent it over the dog, grabbed the lower ends, and then straightening up, had the struggling terrier like a rat in a trap. Amid the applause of those who saw her skillful act, she carried her prisoner to the operating room, sprinkled chloroform on the sheet and before long the dog was dead.

MISS KEY ALMOST PENNILESS.

Granddaughter of the Author of "Star Spangled Banner."

WASHINGTON, July 8.—"We will be without a penny in the world next Monday week" was the way her condition and that of her aged and blind mother was described Saturday by Miss Elizabeth Key, granddaughter of Francis Scott Key, the author of "The Star Spangled Banner." This affectionate daughter has had a hard time since she was dopped from the roll of clerks in the office of Commissioner Lochren, of the pension office. Miss Key was appointed a clerk through the influence of the late Senator Pendleton, of Ohio. Friends have intervened with the pension office authorities for the reinstatement of Miss Key, but without avail. Secretary of Agriculture Morton called at the office to investigate the case, but was informed that Miss Key was dismissed for "inefficiency." She said that the work she was performing at the time of her dismissal was simply the copying of slips. Her influence appears to have gone, but she still has some hope that the Key Monument association, of Frederick City, Md., may be of some assistance.

7,000,000,000 HORSE POWER.

Niagara Falls Has Already Been Partly Harnessed.

Niagara represents a potential force equal to that of all the coal mined in the world, computed at 7,000,000 horse power, all of which has been running to waste for countless ages and centuries. The cataract first blew its trumpet from the steep and hung the rain bow amid its ascending spray. The economist may repine that so much working energy has so long been thrown away, but a sentiment of exultation that some part of it is now to be girded in the harness of the world's industry is more correctly in order.

Skilled engineers declare that the available power of the falls, leaving its spectacular grandeur entirely unimpaired, will turn over every city, run every trolley and light every city and town within a radius of 200 miles, and one of the most eminent among them says it can be conveyed in any desired volume as far away as Chicago or New York. The first wheel has just been set in motion equal to the transmission of 5,000 horsepower, to be increased according to existing chapters something like one hundredfold as the need for it is developed. Henceforth Niagara possesses an industrial interest equal to that which it has always had as one of the most majestic spectacles on the globe, this attribution shorn of none of its glories by the creation of its new and stupendous utilities.

The success of the work there shows that all waterfalls can be harnessed to production and made to do a part of man's work, and they will be one after another, all over the world, producing industrial effects comparable with those following the invention of the steam engine. The day of the first turning of the electrical wheel there was memorable and introduces the cataract to a new function almost as grandiose in its promise and possibility as its appearance has always been.—New York Tribune.

A WIFE HUNTER.

Gets a Stack of Letters From Wiling Young Ladies.

New York, July 9.—There is a stack of letters at the Marriage Bureau in the city hall for Orin H. Holt, the young Canadian farmer, who has come to New York looking for a wife.

Mr. Holt yesterday announced that he had come all the way from Ontario to get a good looking and healthy New York girl, who has \$3,000 or \$4,000 in addition to other qualifications he thinks the wife of a well-to-do, good-looking healthy farmer should have. He bars widows.

The clerks in the Marriage Bureau told him they would help him out, and the newspaper reporters volunteered to assist by telling some of the very many girls they know, who have \$3,000 and want to get married, that Mr. Holt is in town. They did so, and when Mr. Holt tried to go to sleep last night in a home on West Eighteenth at, where he is stopping, a band of girls called to see him. He didn't get much sleep.

Holt promised to call at the city hall today and look over any girls who filled the bill. Only two showed up. One was a blonde of 24, but she wouldn't suit Mr. Holt. She said she had been on the stage, and wanted to know how much money Mr. Holt had.

"Maybe he's looking for something easy," she said, "and hasn't got a dollar. Now I want to get married, and I've got some money, but the man I marry has got to have a roll that won't break for some time. I thought I came down and look at him."

She didn't, because Mr. Holt had not shown up. The other clerk was also of the blonde variety, but would not volunteer information about herself.

We are at the opening door of returning national prosperity. The coming crops, the re-establishment of public confidence, and, above all, the blessing of God, will turn in upon all sections of America the wildest, greatest prosperity this country has ever seen. But that door of success is not yet fully open, and thousands of business men are yet suffering from the distressing times through which we have been passing.

In the first place, I have to remark that the majority of the business men feel that the business is running on trials and temptations because of the lack from small and limited capital in business. It is everywhere understood that it takes now three or four times as much to do business as once it did. Once, a few hundred dollars were turned into a business, and the owner of the business, his own store-sweeper, his own salesman, his own book-keeper, he would manage all the affairs himself, and everything would be no profit. Wonderful changes have come; costly apparatus, extensive advertising, exorbitant store rents, and the like. The extent of the agencies are only partly of the demand made upon our commercial men; and when they have found them-

than he can fight with the yardsticks. Their souls melted in them because sugars were up when they wanted to buy and down when they wanted to sell, and unsalable goods were on the shelf, and bubbles in their ledger. The gloom of their countances overshadowed even their dry goods and groceries. Dependency, coming from limited capital, blasted them. Others have felt it in a different way. They have said: "Here I have been trying to do something, but I have been trying to do honest all the time, and I find it is no use. Now it is broke or break." The small craft that could have stood the stream, is put out beyond the light house, on the great sea of speculation. He borrows a few thousand dollars from friends who dare not refuse him, and he goes bartering on a large scale. He reasons in this way: "Perhaps I may succeed, and if I don't I will be no worse than I am now, for \$100,000 taken from nothing, nothing remains." Stocks are the only way with he gambles, and he goes to ruin.

spiral coming down with lightning speed from every direction. There it is all on paper! The city has never been built, nor the railroads constructed, but everything points that way, and the thing will be done as sure as you live. Well the man goes on, stopping at no fraud or outrage. In his splendid speech he tells of the battles past, while the honest laborer looks up and wipes the sweat from his brow, and he says, "I wonder where that man got all his money." After awhile the bubble bursts. Creditors rush in. The law clutches, but finds nothing in its grasp. The men who were swindled say: "I don't know how I could have ever been so stupid." The picture is a masterpiece, in handsome woodcuts, set forth the hero who in ten years had genius enough to fail for \$150,000!

Again, a great many business men are tempted to overanxiety and care. You know that nearly all commercial businesses are overdone in this day. Smitten with the love of quick gain, our cities are crowded with men resolved to be rich at all hazards. They do not care how money comes, if it only comes. Our best merchants

dependent upon the uncertainties of the brain, this corroding care of the heart, this strain of effort that exhausts the spirit, sends a great many of our best men, in middle life, into the grave. Their life is dashed out against money sales. They go with their store on their backs. They struggle like camels sweating, from Aleppo to Damascus. They make their life a crucifixion. Standing behind desks and counters, bashed from the fresh air, weighed down by darkening cares, they are so many sunburnt, out some of those hues of care; that I could lift some of the burdens from the heart; that I could give relaxation to some of these worn muscles. It is time for you to begin to take it a little easier. Do your best and then trust God for the rest. Do not fret. Do manages all the affairs of your life, and he manages them for the best. Consider the lilies—they always have robes. Behold the fowls of the air—they always have

family circle: "I am ruined. Everything is gone. I am all ruined." His wife said: "I am left;" and the little child threw up its hands and said: "Papa I am here." The aged grandmother seated in the room said: "Then you have all the promises of God besides, John." And he burst into tears, and said: "God forgive me, that I have been so ungrateful. I find that I have a great many things left. God forgive me."

The family table, which ought to be the place for pleasant discussion and cheerfulness, often becomes the place of perilous expedition. If there be any blessing asked at all, it is cut off at both ends, and with the hand on the carving knife. He counts on his fingers, making estimates in the interstices of the repast. The work done the hat goes to the head, and he starts down the street, and before the family has arisen from the table he has bound up another bundle of goods, and says to the customer, "Anything more I can do for you today, sir?" A man

children will be captivated by the glittering saloon of sin unless you place there any other place to which they can be drawn near to them. Oh! gather all charms into your house. If you can afford it bring books and pictures and cheerful entertainments to the household. But, above all, teach those children, not by half an hour twice a year on the Sabbath day, but day after day; and every day teach them that religion is a great gladness, that it throws chains of gold about the neck; that it takes no spring from the foot, no tidiness from the hand, no grace from the eye, no suffering from the laughter; but that "her ways are ways of pleasantness, and all her paths are peace." If I sympathize with the work being done in many of our cities, by which beautiful rooms are set apart by our Young Men's Christian Associations, and I pray God to prosper them in all things. But I tell you there is something back of that and before that: We need more happy, consecrated, cheerful

come almost to think that the heaven that would be appropriate for him would be an everlasting poor house. While, my friends, we do admit that there is such a thing as a lawful use of money—a thing that is not only lawful but recognize also the fact that money cannot satisfy a man's soul, that if it cannot glitter in the dark valley, that it cannot pay our fare across the Jordan of death, that it cannot unloose the gates of heaven. We do admit that there are those who seem to act as though they thought that a pack of bonds and mortgages could be traded off for a title to heaven, and as though gold would be a lawful tender in that place where it is so common to see the angels—yet, my friends, Treasures in heaven are the only incorruptible treasures.

Have you ever gaped out in the face of loss and gain the sum? "What shall I profit, if I have gained the whole world and lost his own soul?" However fine your apparel, the winds of death will flutter it like rags. Homespun and a thread-bare coat have sometimes been the shadow of coming robes made white in the blood of the lamb. The pearl of great price is worth more than any gem you can bring from the ocean, than Australian or Brazilian mines strung in one caracat. Seek after God; find his righteousness, and all shall be well here; all shall be well hereafter.

men were worn, weary.

As the ship-
work of the Central America.
That noble steamer had, I think,
about 500 passengers aboard. Sud-
denly the storm came, and the
surges trampled the decks and
swung up the hatches, and there
went up a hundred-voiced death
cries. The foam on the jaw
of the wave. The pitching of the
steamer as the sea came up to
a mountain. The dismal flare
of the signal rockets. The long cough
of the steam pipes. The hiss of
extinguished furnaces. The walk-
ing of God on the wave! The
steamer went not down without
a struggle. As the passengers sta-
tioned themselves in rows, to bale
out the water, the men, with the
hook of the bucket, as men un-
der a hail of shot, with strained
muscle, tug for their lives. There
is a sail seen against the sky. The

lash of the distress gun is noticed, his voice heard not, for it is choked in the louder booming of the sea. A few passengers escaped; but the steamship gave one great lurch and was gone! So there are some men who sail on prosperously in life, but when the storm of adversity comes, some financial disaster comes, they are unprepared, they are unprepared. Down they go! The bottom of the commercial sea is strewn with shattered hulks. But because your property goes do not let your soul go. Though all else perish, save that; for I have to tell you of a more stupendous shipwreck than that which I just mentioned. It is a shipwreck of 10,000 years ago. It has been going on under freight of mountains and immortals; but one day it will stagger at the cry of fire. The timbers of rock will burn, the mountains flame like masts, and

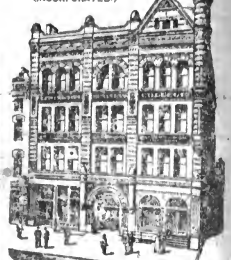

the clouds like sails in the judgment hurricane. Then God shall take the passengers off the deck, and from the berths those who have long been asleep in Jesus, and he will set them far beyond the reach of storm and peril. But how many shall go down will never be known, until it shall be announced one day in heaven: the shipwreck of a world! So many millions have perished, and are now drowned! Oh, ye dear hearers, whatever you lose though your houses go, though your lands go, though all your earthly possessions perish, may God Almighty, through the everlasting covenant save all your souls.

Monthly Crop Report.
I was unable on the 1st of June to make a very favorable report for wheat. The per cent. was given at 82.1, which was a fair showing. Since that time the fly and rust has been pretty general over the state, and in some counties the rust has been very bad, and now from my own observation and from talking to farmers who have thrashed their wheat, I don't think the yield will be over half a crop, and quite a number of correspondents from the county of Woodford agree to the short crop; one says "that the wheat was hurt in some places from frost, rust and fly and was not gradeable, the other says: "In addition to fly I now report rust." I think 75 per cent. will be the full amount and of an inferior quality. I could mention a number of counties like the above—in fact there are very few good reports. Those few counties making good reports will make the average higher than it really should be from the general tone of the correspondence. The correspondent from Anderson county thinks that the average from the county will not be more than five or six bushels per acre. The correspondent from Trigg thinks that the average weight of wheat of his county will not weigh over fifty-five pounds to the measured bushel. The average of all the reports is placed at 73.8 per cent.

CORN.—The corn crop has improved much since my last report. All the correspondents agree that the prospects are very flattering. The correspondent from Shelby says: "Notwithstanding the ravages from worms early in the season, the outlook for cereals and root crops for this section is very promising, in fact very nearly if not quite up to the general average. The growth of corn this season is uneven. Some of it is very small and some of it ready to lay by—caused by having so much replant corn—having been planted as many as three times, but all looking well and doing well and where the ground has been well worked, the rains in the last few days will push it forward very rapidly. The condition July 1, is placed at 93.5 per cent. Average compared to fall crop is placed at 98.3.

RYE.—I am never able to get a very full report on rye. So many counties not raising it and much of it being sown for pastures during the winter and plowed under in the spring. The reports I have are more favorable than that of wheat. The condition is placed at 91 per cent.

OATS.—In giving my own observation that I did not think the correspondents were on where I thought enough, I am just the reverse on oats; I do not think they put the per cent. high enough. I think I have never seen a better crop. I have received reports of a very small number of fields the absence of black or blighted heads—have not seen one. I think the correspondents from Oldham and Cumberland, in placing the per cent. at 123 is not too high. The correspondents from Woodford and Scott place it at 125. Some few counties place it at 90. The general resume places the average at 90.7 per cent.

BARLEY.—It never takes long to get the average condition of barley, so few counties raising it. The average of those reporting it is placed at 92 per cent.

SORGHUM.—I inquired as to the average condition of sorghum. From the answers it is not as successfully grown as in former years. The general impression seems to be that, through the fall and early winter, or until it freezes, the fine feed, but after it freezes it is not much good. The average compared to a full crop, is placed at 92 per cent.

POTATOES.—The reports about the potato crop vary very greatly; some very good and some very indifferent. The average compared to a full crop, is placed at 97.4 per cent. The average condition, July 1, is placed at 88 per cent.

WOOL.—The amount of wool clipped is placed at 89 per cent.

PASTURES.—There was very great complaint about pastures; in fact they had commenced to burn from the sparks from the railroads. Meadows in many places have suffered from the want of moisture, but they will be very much improved by the late rains. The average condition July 1, is placed at 80 per cent.

APPLES.—From the correspondents' report the apple crop will be very large. The condition, July 1, is placed at 97 per cent.

PEACHES.—Not enough counties reporting to make a report.

GRAPES.—The average condition of grapes July 1, is placed at 77 per cent.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have so much faith in its powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHERRY & Co., Toledo, Ohio.

Kentucky Democratic State Platform.

FIRST.—The Democracy of Kentucky in convention assembled congratulate the country upon the repeal of the McKinley tariff law, and upon the evidences we have on every hand of returning prosperity, under the operations of reduced and equalized taxation, and we denounce as fraught with danger and disaster the threat of our Republican party to reestablish a protective tariff and to reinaugurate a policy of unequal taxation, which in connection with general misgovernment by the Republican party culminated in the business panic of 1893.

SECOND.—The Democratic party, which has always stood for the separation of church and state, for the sake alike of civil and religious freedom, does not hesitate to condemn and efforts to create a distinction among citizens because of differences in faith as repugnant to an enlightened age and abhorrent to the instincts of American freemen.

THIRD.—We reaffirm without qualification the principles and policies declared by the National Democratic Platform of 1892, and declare that our present National Democratic Administration is entitled to the thanks of the party for its honest, courageous and statesmanlike management of public affairs, and we express our undiminished confidence in the Democracy and patriotism of President Grover Cleveland and his distinguished co-adjutors and Secretary, John D. Cady, of Kentucky.

FOURTH.—When the Democratic party came into power in 1867 the bonded indebtedness of Kentucky was over \$1,000,000. The nominal value of the assets of the sinking fund was about \$8,000,000, made up in part of internal improvements that cost over and were carried at a valuation of \$4,500,000, but which yielded at that time no net revenue, and were worth in cash only about \$500,000, thus showing an actual deficit in the sinking fund as compared with the bonded indebtedness of about \$900,000. Since 1867 the bonded indebtedness has been reduced to \$670,000, and the available assets of the sinking fund more than equal that sum.

We have increased the annual appropriation for support of our charitable institutions from \$250,000 in 1867 to \$300,000 in 1895, and while improving our judicial system by increasing the number of courts and the frequency of their terms we have been compelled to increase our expenditures, one of the greatest items of which is the cost of criminal prosecutions, and a not creditable fact in connection with which is that the increase is greatest in districts controlled by Republican officials. We have nevertheless been able to decrease the current rate of taxation for general revenue purposes from twenty cents on the one hundred dollars of taxable property in 1867 to fifteen cents in 1895. The Democratic majority have voluntarily increased the annual expenditures for the support of common schools from \$250,000 in 1867 to about \$2,000,000 in 1895, and by wisely providing separate schools for the colored race are today giving to the children of the colored race opportunities for education they nowhere else enjoy.

In the face of unexampled difficulties the Democratic party has succeeded in wholly withdrawing convict labor from competition with free labor and in abolishing the practice inherited from the Republican party of leasing the convicts to parties interested solely in making profit out of their labor, and in adopting the modern and improved methods by which the state and its officials are made directly responsible for the management of our state prisons and under which our penitentiary system has been and is being greatly improved.

During the twenty-eight years the people have intrusted the Democratic party with the control of the state government its administration has been characterized by the strictest economy and integrity, and in this regard we invite comparison with any Republican state government.

FIFTH.—We express our confidence in the wisdom and honesty with which the present state administration has conducted the affairs of our state government.

Arrested as Deserters.
PITTSBURG, PENN., July 5.—Twenty years ago Alois Winter, now treasurer of the M. Winter Brewing company, and James Burg, a wealthy saloon keeper of this city, left Germany to make their fortunes in America. They came to Pittsburgh and prospered. A month ago they started on a visit to their old home, near Munich.

While in Berlin they were arrested, according to a cablegram received by a relative of Mr. Winter, and charged with being deserters from the German army. It is said an enemy of both men, after they had arrived in Germany called to the authorities, and the arrests followed. The families here are worried over the affair, and have cabled for definite information. It is claimed that Winter was released from service by the captain of his company, who was afterwards drawn out without making the release public. His successor, they think, not knowing of the release, preferred the charges.

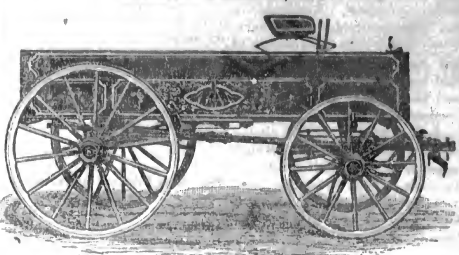

The United States authorities will be asked to look into the matter. Both men are naturalized.

"Mr. Hawkins," said she, "I wish you'd decided to bet between me and Mr. Harrows. He says it is only 500 feet from here to the hotel, and I say it is 1,000 feet."

"Well," said Hawkins, "I should say you were both right. It's about 500 of Barrow's feet and 1,000 of yours."

The man who is only concerned to speak the exact truth is not apt to be glib.

DEMOCRATIC STATE TICKET.

For Governor,
P. WAT HADIN, of Mercer.
For Lieutenant Governor,
H. T. TYLER, of Fulton.
For Treasurer,
R. C. FORD, of Clay.
For Auditor,
L. C. NORMAN, of Boone.
For Register of the Land Office,
G. B. SWANGO, of Wolfe.
For Attorney General,
W. J. HENDRICK, of Fleming.
For Secretary of State,
HENRY S. HALE, of Graves.
For Supl. of Public Instruction,
ED PORTER THOMPSON, of Owen.
For Commissioner of Agriculture,
ION B. NALL, of Louisville.

Mr. LYKINS, who will you vote for if you are our Representative? You can't dodge the question. Answer. Mr. Rose has expressed himself.

The Courier-Journal seems not content to let up its tirade against the state ticket. It ought to be magnanimous enough to give up when defeated.

JOE BLACKBURN is creating quite a commotion among the politicians. He seems to be taking care of himself though, and he believes himself a sure winner.

We are for the people who stand by the mountains. Both Buckner and Blackburn were our friends at the state convention, while McCreary stood by his "neighbor" 800 miles away and voted every time against Swango and Kendall.

The Sheriff of Mt. Sterling is making arrangements to hang John Johnson, the colored murderer of policeman Evans, who is sentenced to be executed on the 16th of August. Johnson has weakened and his prayers can be heard on the outside of the jail. The hanging will take place in some vacant lot, and will probably be witnessed by ten thousand people.

The Democratic campaign committee held a conference July 18, at which it was decided that chairman Norman should at once communicate with John W. Yerkes, who will probably be the chairman of the Republican campaign committee, to arrange for a conference between them to select dates and a series of debates between Messrs. Hardin and Bradley "On the Issues of the campaign."

Industry has ceased to hum "in these parts." About the only humming that is being done now is the buzzing of the flies as they swarm about the "sugar and cracker" perfumed faces of a score of idle loafers, wearing out the counters of our disheartened and discouraged merchants, or whittling to pieces dry goods boxes on the street corners. Verily, this is a progressive age.

There are no new developments in railroad matters. The calculations etc., on the Frozen creek route have not yet been made public and we shall be compelled to await the company's action. In the meantime we should be alive to our interests and let no opportunity escape us.

Those who have the subscription papers in hand should see the property owner at once and secure every contribution possible. Let no stone be unturned.

The re-nomination of Hon. G. B. Swango for register of the land office by the Democratic party, and the nomination of Hon. J. E. Quicksall for the same place by the Populist party is quite a singular co-incidence. They reside in the same county and in the same town, and are the joint owners of the Hazel Green Flowering Mills and Lumber Company. Mr. Quicksall has declined the nomination tendered him. Possibly he thought it would be better that he should remain miller and Mr. Swango register, notwithstanding rotation in office is both Democratic and Populist. At any rate neither will be the gainer to any great degree unless the times improve. The wheels of state government like those of the mill grind exceedingly small, and the prizes of each are always doubly earned.

The coming primary will bring the question to every Democrat in Wolfe and Morgan counties as to whether we shall endorse McCreary? It is a question of vital importance and we should make no mistake for after the 27th, inst. it can not be remedied. In the first place McCreary has taken no positive stand on the money question. He talks and writes about it but comes to no conclusion. He panders to the prejudice of both sides and thereby makes a straddler. He talks silver to silver men and gold to gold men, and for this reason alone we should spue him out of our mouths. McCreary and his friends say we should support a man favorable to his election for Senator, because we are neighbors. Very well, but is this argument consistent with his acts. On the 25th ultimo our legislative district presented two candidates before the state convention at Louisville—Swango and Kendall—and how did McCreary "neighbor" with us? Kendall never got a vote from McCreary's county and Swango only got four and yet we are asked to support him because he is our "neighbor." McCreary used every influence possible to defeat Judge Swango and made no secret of it either. Now let every man who is a friend to Swango and Kendall put his shoulder to the wheel and see that a McCreary man is not our nominee. Make the candidates express themselves on this point in particular.

TWO GIRLS

Alleged to Have Been Brutally Treated by a Kentucky Moonshiner.

RICHMOND, KY., JULY 18.—Near the Jackson county line, 18 miles from this place, Manse Rector, an alleged notorious moonshiner, living among the hills of Jackson county, called at the home of Mrs. James Pace, a widow living about 10 miles from Beros, and, after having left the house and waited until he had a favorable opportunity, induced Susan Pace, a child 14 years old, from her home to go to a spring some distance away. Here, it is said, he assaulted the child, and left her in a seemingly dying condition. She is a cripple, and after some hours, tried to crawl to the house. A neighbor going to the spring saw tracks of blood on the ground and followed them to where the little girl was lying. She is horribly mangled and may die. Rector disappeared, and it is supposed that he is now hiding among the hills and underbrush in Jackson county. There is great excitement among the citizens of the little village, and possses have been organized to hunt him down. He always goes armed with a shotgun and pistol, and if overtaken there will be trouble. About six weeks ago, it is said, Rector assaulted in the same man-

ner a young lady of the name of Jackson, living in Jackson county. In this case Rector, it is claimed, watched for a chance and carried the girl off by force to his own haunt in the hills, and kept her there for three or four days. He sent her away afterward, telling her that if she ever disclosed what had taken place he would kill her. Miss Jackson and her mother believed he would keep his word, and only told of the assault to the Police Judge of Beros, this county, where they have been living, fearing to return to their home in Jackson county. The part of the county in which these outrages occurred is a wild, hilly region, off from the railroads, and accessible by only one pike. It will be an easy matter for Rector to make his escape, but diligent efforts are being made to follow him and capture him.

Four Hours Sufficient for Inflammatory Rheumatism.

HAZEL GREEN, KY.
Messrs. DuBois & Webb, Louisville, Ky.
GENTLEMEN—Through the kindness of Mr. Spencer Cooper, editor of the Hazel Green Herald, I was afforded an opportunity to try the efficacy of your "Electropoise," and I must say it acted like magic—almost a miracle to me. I was taken down with inflammatory rheumatism and in twenty-four hours my legs were swollen and my limbs ached with pain almost unbearable. I had no use of elbow, hips, knees or feet, and in this helpless condition I continued to suffer until Mr. Cooper came and offered to use the electropoise. I had no faith whatever, but, like a drowning man catching at a straw, consented to its use. In four hours the pain left my leg, to which the "poise was attached, and I continued to grow better and was able to sit up all day, and had not a pain about me. I resumed my business and feel as well as I ever did. I should add that about two years ago I was confined to my bed four months by a similar attack that the "poise might have cured in four days. I BELIEVE now, and hope all who are afflicted as I was will try the same remedy. Gratefully,
F. N. DAY.

We are acquainted with the facts in this case, and can vouch for the truth of the above.

Whooping Cough.

There is no danger from this disease when Chamberlain's Cough Remedy is freely given. It liquefies the tough mucus and aids its expectoration. It also lessens the severity and frequency of paroxysms of coughing, and insures a speedy recovery. There is not the least danger in giving the remedy to children or babies, as it contains no injurious substance. For sale by John M. Rose.

Our Own People
Tell What
Hood's
Sarsaparilla
Has Done for Them.

"When our baby was three weeks old he broke out with sores which the doctor called a severe case of eczema. We tried everything that we could think of but he failed to get relief. We consulted several doctors but their medicine was of no avail. Feeling a similar case which had been

Cured by Hood's Sarsaparilla we determined to try it. I procured some of this medicine and it proved to be the only thing which gave satisfaction. Our child is now two years and eight months old and weighs 40 pounds. He is a sprightly lad and is very healthy. He has been completely cured by Hood's Sarsaparilla. This has proved a celebrated case in this vicinity and his cure has been a surprise to all those who know about it." J. T. WEAVER, Hazle Green, Kentucky.

The record of remarkable cures effected enables us truthfully to say that

Hood's Sarsaparilla

A much needed rain came last Monday. Corn and grass is much improved, and the water supply, which was very scant in many sections, is now good enough.

Jo Pieratt, of Grassy, was in town Tuesday. Miss Maud Henry of West Liberty, who has been visiting in our town, accompanied Mr. Pieratt home.

Rev. Gordon, a Presbyterian theologian, is spending his vacation with us. He will probably hold a series of meetings at the Presbyterian church before he leaves.

How about having a two days' race course on our track this fall? It is now too late to have a fair, but we could hold a successful race meeting with our trotters and pacers.

Judge Carson, we wish to call your official attention to the bad condition of the road between this place and Maytown. It is much out of repair and should be worked at once.

Spencer Cooper bought himself a fine race mare while in Lexington. He is a heavy weight rider, but in a race by him, like that but not unknown to fame, he gets there with both feet (in the stirrups).

A land syndicate has purchased 30,000 acres of land near Hogtown, on Little Sandy. An effort will be made to have the Bros. railroad to go by this body of land and up the C. & O. road above Hogtown.

The school teachers of Wolfe county who are well qualified should congratulate themselves on having such a thoroughly competent superintendent. Mr. Ford is holding up a high standard of scholarship for certificate by which only the best of the teachers, parents and children.

Mr. Pieratt says he saw a cat at Davis Hamilton's, on Hawkins branch, that is years old. "Thomas" is toothless, and can't hear it thunder. His night is much impaired but is improving, and Mr. Pieratt says he is meeting his broad daylight and that he will vouch for the truth of the whole story.

William Burton passed through town last Saturday enroute to Caney with 50 whiskey barrels, which means that in a few days there will be in his community as many barrels of whiskey. The liquor business may be a legal one, but it is certainly not a commendable one.

John Pieratt has the box dromedary vehicle. It is a 2 1/2 inch road wagon, which may be converted into a spring wagon by changing the bed and attaching a set of four springs. It is one of his own invention, and the dromedary may beat anything of the kind on the road.

Quite a goodly number of people from Hazel Green attended the quarterly meeting at the Chapel last Sunday, among whom we noticed Messrs. Emma Slimp, Mollie Haury, Amanda Ringo and E. Roy Smith and his girl. John Cravens and Mrs. Jo Clark chaperoned the crowd.

Editor Spencer Cooper, of THE HAZEL GREEN HERALD, what Max O'Neil called "the representative county newspaper of America," spent yesterday with Judge and Mrs. G. B. Swango. He was accompanied by his wife, and is only now getting home from the Democratic convention.—Frankfort Capitol, July 10.

Drs. Taulbee and Nickell report the following named persons under medical treatment: Mrs. H. B. Rose, J. B. Thompson, Mrs. E. L. Cecil, Mrs. B. B. McKinn, Mrs. George Clark, Mrs. Abner Gibbs, Mrs. Francis Faller, Mrs. Hollis Gibbs, Mrs. Gibbons, Mrs. Susan Williams, Mrs. John Elam, Lee City; Mrs. John Gilley, Tommie Walters.

The public school will begin next Monday, the 22d inst., and the friends of education should see that every child of school age is ready with books and satchel. Curtis Kitchell will take charge, and it goes without saying that the school will prove a success. He is a teacher of long experience, and he always shows himself a model teacher.

Napoleon lost the battle of Leipzig through a flit of indignation. If the battle of Leipzig was to be fought today Bonaparte could, for 25 cents, purchase of you the power of a box of Hood's Liver Pills, and in a week's time he would feel like a new creature. Thus days of great events often depend for their success upon very slight causes.

If some of the patrons of this school district would pay as much attention and manifest as much interest in the welfare of the school as they do in the welfare of their own interests, the prospects of the present session would be far more promising. Divest yourselves of all of private gain, and go to work for the good of the school.

Rollin A. Kash, police judge of Hazel Green, and James H. Swango, another limb of the law, have opened up their office in the rear of the brick building on the corner of Main and Broadway. They have the best equipped law library ever in our town, and are fresh from ex-Governor Knott's law school, where they graduated in high standing, they are now ready for business. Give the boys a call.

Rev. G. W. Randolph advertises in this paper that he can cure all cases of stuttering. Bro. Randolph wishes us to say that he does not make any charge of preachers who stutter. Neither does he charge widows, nor orphans under sixteen years of age who are unable to pay. Gov. Stone, of Mississippi, says: "I am cognizant of most remarkable cures effected by him. I therefore commend him to all who stutter."

Religious.

Rev. Pieratt will begin a meeting at the Baptist church on near Maytown next Friday, and will continue for several days.

Rev. C. S. Oney preached Saturday and Sunday at Grassy Creek. Quite a number of our people attended and report a very prosperous meeting.

Rev. T. J. Pieratt is fast developing into the Talmage of the mountains. In the past thirty-seven days he has recovered into the church sixty-nine members.

Charley French, a former student of the Academy, is spending his vacation here in Powell and Exall counties. He is now with Rev. D. G. Combs, in Madison county.

Rev. Taylor and Pieratt preached at the Buchanan school-house last Saturday and Sunday. They report five baptisms and four confessions. They also report a church established in the head of Stillwater a year ago with thirteen communicants now has a membership of ninety.

Orange Blossoms.

In an appropriate ceremony at the home of the bride's parents, Mr. and Mrs. J. W. Perry, of Pleasant Run, Rev. F. W. Leary, officiated at the matrimonial happiness of W. W. McClure and Miss Edith Perry.

The happy event occurred Wednesday evening, July 8, 1895. J. P. Hany and Miss Little Oikley were the attendants.

The bride is one of the most beautiful and popular young ladies in our county, and whose society was much sought after, and who is admirably fitted to grace the home of her manly young husband, and will do all in her power to make home a paradise for him. The bridegroom is a splendid young man. He is a son of Dr. R. F. McClure, and is popular, industrious and worthy of the good fortune in his choice of a life companion.—Morgan Messenger.

Geo. W. Drake who is so well known as a detective and United States deputy marshal, took the midnight train at Winchester one night last week for parts unknown. He resigned his position as detective on the L. & E. railroad, which he had held for three or four years, and his office as deputy United States marshal. He is ex-heriff of Wolfe county, and has all his life enjoyed the confidence and esteem of his neighbors and friends. He is an efficient officer, having been remarkably successful in working up cases and making arrests. He has a lovely wife and a family of very interesting children, who are now living in Campton. It seems that Mr. Drake has yielded to the temptations of public life, and has become a slave to his appetite, and the neglect of his family and business was the result.—Jackson Hustler.

The above has been going the rounds of the press for several days, and THE HERALD wishes to say that it is unjust treatment of Detective Drake. True he did resign his office of deputy United States marshal, and was on his way to the west. He however met with an accident while in a sleeper between St. Louis and Kansas City that rendered him helpless. He was robbed of \$1,150 and being a stranger in a strange land, it was natural that he return to the friends that love him most; thus he is with his home people at Campton, Ky. Mr. Drake is much beloved by the people of Wolfe county, and their sympathies will surely be extended to him in his troubles. He is a most perfect gentleman, amiable and kind, and George, we are for you.

Union Sunday-School Convention.

Pursuant to a call of the county committee the various delegates of the different Sunday-schools of Wolfe county met in the M. E. church at Hazel Green, and after devotional exercises by Rev. James M. Little, the county chairman, S. S. Combs, called the meeting to order when he explained the object of the same, after which the program was carried out, and the reports of the various schools were called for and read.

The Sunday-school held in the M. E. church at this place reported as follows: No. of pupils enrolled, 80; average attendance, 52; four classes, presided over by four teachers.

Christian Church—No. in attendance, 40; four classes, presided over by four teachers.

Sandfield—No. enrolled, 70; four classes, presided over by four teachers.

Daysboro—No. enrolled, 65; three classes presided over by three teachers. The time of the next meeting was set for the first Saturday in June, 1896, and the place of meeting Sandfield school-house.

Officers for the next year were elected as follows: H. H. Swango, president; Miss Mattie Quickall, secretary; S. S. Combs, treasurer.

The following resolution was offered and adopted: That we exert a greater effort than we have heretofore to extend the organization of Sunday-schools and spread the gospel throughout the land, and especially in Wolfe county.

That Thirst Fooling.

Is a common complaint and it is a dangerous symptom. It means that the system is debilitated because of impure blood, and in this condition it is especially liable to attacks of disease. Hood's Sarsaparilla is the remedy for this condition and also for that weakness which prevails at the change of season, climate or life.

Hood's PILLS act easily, yet promptly and efficiently on the bowels and liver. 25 cents.

Republican District Convention.

The Republicans of Morgan and Wolfe counties (914 legislative district) are requested to meet at West Liberty Monday, July 22, at 1:30 p. m., for the purpose of nominating a candidate for representative in this district. Morgan county is entitled to 6 votes, and Wolfe 4.

W. J. SEITZ, Ch'm Dist. Legislative Dist.

Trickery.

This is the season of the year in which married women who have been drugging for a year make up their minds that they need a rest and lay plans to spend a month in the country.

This is also the season of the year in which married men induce friends to write anonymous letters to the wives who have been drugging for a year, which, read as follows:

"You will take the advice of a friend who is interested in your welfare and not go to the country this summer. A word to the wise is sufficient. Your husband and me are too glad to see you go. Watch him."

It's a mean trick, but it works.

Lightning Hot Drops.

FRANKFORT, KY., July 14.—Marshall Garner and Isaac Huffman, two young farmers, got into a row in the city of Shelby county, got far from here got into a row this afternoon, and both used their knives with such success that it is not expected either will live. They were engaged in the struggle when the fight occurred, and no one knows the cause. Garner was cut on the face and shoulder and in the right side, and Huffman received nearly the same wounds on the left side.

For Rheumatism, Neuralgia, Sciatica, Gout, Lumbago and all other diseases where a general warming, quickening, strengthening and equalization of the circulation is required. It will last for years, gives no shock, and but a mild, soothing sensation in wearing it. No waiting a long time for results. It acts quickly, generally the first week, more frequently the first day, and sometimes even in the first hour its curative powers are felt. It is inexpensive, harmless in operation, while simple in application, entailing neither discomfort or inconvenience. Through its use, the blood is purified, it has achieved, its seeming simplicity has the effect of causing many to doubt its virtues. But in many instances you will feel a very pleasant sensation the moment it is properly adjusted to your little finger. In proof of the above statement I will refer you to the following most estimable ladies and gentlemen:

J. W. Sparks, W. H. Phillips, Wm. Handy, E. Schneider, Mrs. Morton Funk, Mrs. G. B. Taylor, Sam Smith, J. W. Carroll, Ben Spears, David Arnold.

And a hundred others if necessary. Many of these would not take \$1.00 for their ring and be compelled to do without one. They cost only \$2. No other ring will answer for the same purpose, alone or in conjunction with your mouth, but a nice ring, pleasing appearance, and relief of an excruciating pain. Old folks become young and vigorous.

Man's More Philosophically Which all May Read and Need.

A hobby never has a sore back. The wrong tide is never the safe side.

Truth loves to be looked in the face.

Mothers have taught the world how to pray.

No young man takes his first drink alone.

Every man who obeys Christ belongs to him.

True worship flies up on the wings of praise.

If you don't kill your besetting sin it will kill you.

The man who does right leads an army toward God.

What Christ did, every Christian should be willing to do.

Success is always sure, when we are willing to pay the price.

Byways leading to hell are very close together in a great city.

A hypocrite never fools anybody else as bad as he does himself.

Religion that isn't used outside of the church won't keep sweet.

There are people who have a great deal of religion but no love.

Standing up for prayers means little, unless the heart gets on its knees.

God alone knows what heaven loses when a boy gets started wrong.

Make morality a stepping stone to heaven, and there is no need of Christ.

The devil tightens his grip on a man's neck every time he says no to Christ.

If you want to get in a crooked path, just follow the direction of a corkscrew.

No man is great in God's sight who doesn't do a great deal for his fellowmen.

Whenever your work seems hard, it will make it easier to ask help from Jesus.

There is plenty of gold for those who are willing to go through the fire to get it.

There is nothing so safe as trusting God, and nothing so unsafe as not doing it.

The man who has failed at everything else will succeed if he seeks Christ.

There are people who hate a thief, who borrow books and never return them.

Every man who lives right helps to make unwritten laws for the good of others.

When people are busy for Christ, the devil has difficulty in getting their attention.

Make it right to sell whisky, and you can't prove that committing murder is wrong.

The father should fear to walk where it would not be safe for his children to travel.

The sinner has no cross, and never thinks of being saved in any way except by works.

Some people consider the psalms poetry, but the heart of them is Christian experience.

There may be as much selfishness in giving sometimes, as there is in robbing a bank.

A prayer that is winged with a cry reaches the throne quick, because it flies straight.

When the devil can't get behind the preacher in any other way, he sometimes joins the choir.

Christ never spent any time in looking for an easy place, and neither should his disciple.

When men seek God aright, they do it as the hungry seek bread, and as the famishing seek water.

If we step where God tells us, we shall find when our foot comes down, it is resting on the rock.

Anybody can be pleasant to pleasant people, but it takes grace to be pleasant to unpleasant people.

The test of greatness with God, not how high we have got up, but how low are we willing to go down?

Christ lifted the world toward heaven because he was willing to come down and put his arms around it.

All Men Should Marry.

It was clearly meant that all men, as well as all women, should marry, and those who, for whatever reason, miss this obvious destiny are, from nature's point of view, failures. It is not a question of personal felicity (which in eight cases out of ten may be more than problematic), but of race responsibility. The unmarried man is a skulker, who, in order to secure his own ease, dooms some woman who has a rightful claim upon him to celibacy; and in so doing he deprives himself of the opportunities for mental and moral development which only the normal experience can provide. He deliberately stunts the stature of his manhood, impoverishes his heart and brain, and chokes up all the sweetest potentialities of his soul. To himself he is apt to appear like the wise fox that detects the trap, though it be ever so cunningly baited, that refuses to surrender his liberty for the sake of an appetizing chicken or rabbit, which may after all be a decoy, stuffed with sawdust; while, as a matter of fact, his case is that of the cowardly servant in the parable, who, for fear of losing his talent, hid it in a napkin, and in the end was deemed unworthy of his stewardship.—North American Review.

Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicine that would relieve me of rheumatism like Chamberlain's Pain Balm. I have also used it for lame back with great success. It is the best liniment I have ever used, and I take pleasure in recommending it to my friends. For sale by J. M. Rose."

Don't Stop Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing comfort, health and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872 without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking Baco-Curo—it will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes, or refund the money with 10 per cent. interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day when you took your first chew or smoke. Sold by all druggists, with our iron-clad guarantee, at \$1.00 per box, three boxes (30 days' treatment) \$2.50, or sent direct upon receipt of price. Send six 2-cent stamps for sample box, booklet and proofs free. Eureka Chemical & Manufacturing Company, manufacturing chemists, La Crosse, Wisconsin.

DON'T STOP TOBACCO
IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about **BACO-CURO**. It is purely vegetable. You do not have to stop using tobacco with **BACO-CURO**. It will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes, or refund the money with 10 per cent. interest. Two Ex-Convicts Strangely Entangled.

Wm. Wells, direct from the Indiana State Prison North, at Michigan City, where he had just finished a five-year term for robbing a store in Indianapolis, last evening in Jeffersonville met a wife, who married a convict named Thomas Hard, a convict on a divorce. Hard, a wife whom he deserted in Indiana, Ind., leaving her and four children in destitute circumstances.

Wells was unable to find any trace of the couple, although he ascertained that Hard and Mrs. Wells had been living in Jeffersonville and thence. Wells left yesterday, but did not say where he was going. He was twenty-five years old and seven years of his life had been spent behind prison walls. He first came from Columbus to serve one year for petty theft. He was only sixteen years of age, but his mother saved him from the Reform School by prepaying herself and swearing that he was eighteen years old. Wells' mother and sister were women of no world and did not long ago the mother died. The girl is now leading an abandoned career.

Wells was after Wells finished his term in prison that he returned to Columbus. He married a pretty young woman, Barnett by name, but being unable to support her, he robbed a store and was arrested. For this he was committed to the Jeffersonville penitentiary for two years. His wife followed and made her home within the prison walls. She found it necessary to go back to Columbus and soon took up with Thomas Hard. Hard abandoned his family and shortly afterward said he had been married to Mrs. Wells.

Now comes one of the most remarkable features of the story. Two years had passed, and one night Hard was detected looting a store. Wells had robbed. Hard was given a two-year term in Jeffersonville. While he was being brought down on the train Wells was going north on another, having been released from the penitentiary. The men chanced to see each other. Wells and his wife again met at Columbus, were reunited and moved to Indianapolis, where they began life anew.

Wells got out of work and committed the robbery which added him in prison at Michigan City. It was afterward that Hard went to Columbus, found Mrs. Wells, brought her to Jeffersonville and took up their residence. Wells says he will not stop until he finds the pair.

Poultry Facts in a Nutsell.

Give the hens sweet milk to drink. It promotes laying and health. Turkey eggs hatch best on the ground, where it is warm and dry. Keep setting nests well lined with insect powder and rub little sweet oil on the hens heads once a week. Put all of the poultry out of the poultry house, then take a little sulphur of carbon in shallow dish, go out and shut the house up tight, leave it twenty-four hours, then open and ventilate. Be careful of fire or light, for the gas is highly explosive. Beware! all the premises, keep things clean and wholesome. Keep lice away. —Ohio Farmer.

A New Female Industry.

Several young women in London have started a novel and somewhat unbecoming establishment, they take last season's dresses and take them over in the prevailing fashion. No entirely new dresses are made, and the changes are reasonable. They should succeed, for the world is full of nice people who do not often buy a completely new dress, and to those who sometimes have dresses given them by their richer sisters such a place would prove a decided benefit. —Queen.

Howorth—What did you mean saying that that Boston girl got the old man solid? Wells—She kissed him twice and froze him as stiff as an ice-cream Town Topics.

According to Chinese law a wife who is too talkative may be divorced.

Womanhood.

Kansas has twenty women holding office as county superintendents of public instruction.

Mrs. Jefferson Davis and her daughter, Miss Winnie, are spending the summer at Naragansett.

Queen Victoria is supplied with four dozen pairs of kid gloves per month from a certain fund, and she insists on having them.

The mother of Mr. Moody, of Moody and Sanky fame, is still living at the age of ninety. She has twenty-seven grand-children and seventeen great grandchildren.

Mme. Dieulafoy, of Paris, has worn men's clothes since 1870. She goes to balls in a swallow-tail coat, with her hair clipped close to the head, yet she is called "exquisitely womanly."

Miss Rebecca Ming, of Mendham, N. J., is within one month of her ninety-seventh birthday, is healthy and active, has never had the services of a doctor and yet has never traveled on a railroad train and never been more than five miles away from the place where she was born.

The grave of Nancy Hanks Lincoln, the mother of President Lincoln, at Rockport, Indiana, was decorated on July 4 by the women of Perry, Spencer and Warrick counties. It is inclosed by an iron fence and is marked by a simple plain headstone, on which is inscribed: "Nancy Hanks Lincoln, Mother of the Martyred President, Died November 5, 1818, aged 35 years."

Selling silver polish to support herself and father, Miss Foote, daughter of C. B. Foote, President of the late failed Commercial Bank of Cincinnati, goes from house to house daily. The young woman is well educated, but could find nothing to do. She manufactures and sells the polish, and what she makes supports herself and father, and is their only income.

Abridged History of a Courtship.

Met him—met him again—in love with him. Met him again—no longer in love with him, but he is in love with me because I am so beautiful. Met him again—he is still in love with me, not only because I am so beautiful, but because I am also good. Sorry for him. Again I met him—he is colder than he was. Think he has forgotten my beauty and my goodness. I, however, am inclined to think that I am in love with him after all. How lucky he is, and how angry mamma will be. Mamma proved to be strangely pleased. Makes me angry, for I know she is not a good judge of a young girl's heart. Flirted with him outrageously to make mamma angry. Didn't succeed. Engaged to him—glad. Married to him—sorry. —Chicago Tribune.

Stuttering Cured.

I want every stutterer in the United States to write to me at once. I can cure the worst case in a short time, was once the most inveterate stutterer in the land; I know the trouble you have and can relieve you of it. I refer all stutterers to Dr. W. B. Sanford and Dr. G. G. Buford, Memphis, Tenn. I have a fine sanitarium where I treat patients for stuttering and all nervous troubles. I board all my patients cheaply; when you write send stamp for reply. I cure by mail if desired. G. W. RANDOLPH, Memphis, Tenn.

NIGHT RIDERS.

Drug Caldwell County Farmers from Their Home and Murder One.

PRINCETON, Ky., July 9.—Hewlett Howton was shot and killed and his father dangerously wounded by a mob last night. The mob went to Joseph Howton's house and called for Hewlett, and being informed that he was not at home opened fire on the old man. They then forced an entrance into the house and took Hewlett by force and dragged him into the yard, when he was shot and left for dead. They then went back into the house and tied a rope around the neck of a younger brother and started to hang him. He begged so piteously they turned him loose, but threatened him with instant death if he ever divulged anything. They then parted in squads to guard the premises. After the mob disappeared Hewlett called his brother and told him to go for a neighbor. He started, but was soon apprehended by the mob and made to return. Hewlett lingered until daylight, when death ended his sufferings.

The Coroner held an inquest this afternoon, and the jury returned the usual verdict. An immense crowd was present, but every one seemed afraid to speak.

There seems to be no reason for such a crime. From some remarks made by the mob the only cause for the killing was that Hewlett was suspected of burning some fences, and possibly a house, but no proof has ever been established of his guilt. When the mob caught him one of them remarked that he would never do any more burning. He may have had some personal difficulties with some neighbors, but nothing to justify such a crime. He had also been instrumental in securing some indictments against some offenders. Within twenty-four hours some of the mob will be in custody, if they do not get out of the country tonight. Developments are anxiously awaited.

We had an epidemic of dysentery in this vicinity last summer," says Samuel S. Pollock, of Bricefield, Cal. "I was taken with it and suffered severely until some one called my attention to Chamberlain's Colic, Cholera and Diarrhoea Remedy. I procured a bottle and felt better after the first dose. Before one-half of the bottle had been used, I was well. I recommended it to my friends and their experience was the same. We all unite in saying it is the best." For sale by J. M. Rose.

WOLFE COUNTY.

Late Sayings.

Mahala Terrill is on the sick list. Farmers are almost through with their corn.

William J. and J. B. Holton went to Morgan county last Saturday.

Byrd Spradling, of Lane, attended the Sunday-school picnic at Bethel the 13th.

W. J. Holton has purchased a fine saddle horse of G. S. Pieratt for \$100. Now go, Billy.

Joseph Candiff, of Breathitt, passed through here Saturday, enroute to the Stillwater bridge.

Miss Edie Elkins and Zerilda Miller are visiting the families of Joseph P. and Jeff M. Rose, of Lacy Creek.

John B. Holton, of Red river, came over last Saturday, accompanied by his mother. They returned Sunday.

Melvin King, who has been very low for some time, sent for Rev. Henry Taylor last Monday, July 8. He came and held a meeting. She joined the church and was baptized by immersion.

Uncle John Holton and wife, of this place, have been visiting the families of Dock Perkins, D. B. Rose and J. B. Holton the past week. Uncle John is one among the first settlers of Holly Creek.

Flat Happenings.

Born to Mr. and Mrs. Cable, a girl. Most of our farmers have laid by their corn and are now harvesting their oats.

Whoopingcough and wool-pickings are in the ascendency in this section at present.

Our religious circle is greatly excited over a sermon delivered by Mr. Maynus, at Antioch, a gentleman from Virginia, Sunday, the 7th inst. Some time ago there came to this place from parts unknown a young man calling himself Prof. L. S. Benton, preaching in the name of the Campbellite church and denouncing all other denominations as heretics and sowers of the seed of darkness. He has become so ungenteel in his remarks about other denominations while in the pulpit that some unconverted men and boys made the air so blue with blows and feathers, etc., that he left this section and went to Lee county, where he established a church with three or four members in an old house that had been used as a commissary while the K. U. railroad was in course of construction, where he preached for several weeks. Late in the week (and the story was told by truthful persons) that he has stolen a gold watch, \$5 in cash, a pair of gold spectacles and a pair of pants and slipped. A short time before the above named articles were fingered by the Prof., several ministers of the reform church tried to remonstrate with him concerning his abuse of other churches. He became offended and a pugilistic encounter ensued, in which he was black and blue and shirt bosoms red at an astonishing rate; kicks were given and returned that would have put to shame a Texan pony.

[Delayed Letter.]

Born to Mr. Mrs. Kilian Miller, a girl. Born on the 27th ult. to Mr. and Mrs. S. D. Shackelford, a girl.

Born to Mr. and Mrs. Frank Congleton, of Lee county, a girl.

What has become of Jim Swango? He has many friends on this side of this precinct.

Mr. Peter Cobb, whom we reported as insane in our last letter, is recovering, and we hope will be sound again soon.

On the 27th ultimo Hans Spencer killed a mud cat-fish in the north fork of the Kentucky river, at a place that is known to rivermen as the "goose's nest" that weighed 49 lbs.

Your correspondent attended a celebration on Holly Creek, this county, on the 4th inst., and never did we enjoy ourselves better. "The life's shrill note, the drums loud beat," aroused the spirit of patriotism in every bosom, and caused our minds to wander back to the days of Washington, and our hearts to keep time to the sweet notes of the fife, when in our imagination we beheld on many a glorious field, "the old continental in their ragged regimentals, yielding not," but gloriously battling for the freedom we now enjoy. Three cheers to the memory of our gallant ancestors, who framed the Declaration of Independence, and three more for the hardy warriors who made that declaration good on the field, amid the lurid glare and smoke of battle. The celebration went off finely. There was no whiskey, and consequently no drunkenness, fighting or quarreling. Our young orator, Ben Jewell delivered an oration that was indeed grand.

Stucco.

Re. The Herald and be happy.

Spreading Spangles.

Success to THE HERALD and its many readers.

Mr. Malissa Gookey is on the sick list this week. S. H. Gookey went to Campton on business Monday.

Florence Crawford visited friends in Maytown last week.

J. J. Tutt has been employed to teach the free school at this place—Bethel.

Rev. J. F. Wilson is teaching a singing school at the Calaboose school house. Mr. S. S. Shackelford and wife went to their farm on Devil's creek Monday.

Miss Rosa Tutt, of this place, went to Campton yesterday on a trading expedition.

Mrs. Palina Handy was taken very ill Sunday, but is thought to be some better at this time.

There will be a Sunday school picnic Saturday next in the grove just below the Bethel graveyard.

Born to Mr. and Mrs. Tom Barrett, last week, a boy. Tom is hatless and is stepping high as a bob-tail rooster in a hen house.

The singing school which has been taught by Bro. J. F. Wilson closed yesterday with good results. The scholars are improved nicely.

Joe Brown, while on his road from singing, in company with his best girl, became so deeply interested as to let his horse run upon a rock in the road and fall dead. Providence favored Joe and he got up without any broken bones.

Farmers are all about done laying by corn. Crops look well at this time. Orchards are loaded with fruit, and nothing to keep our neighbors from enjoying life except not having "Tut Hiss" to read.

HYPREX.

MORGAN COUNTY.

Maytown Missiles.

W. W. Manker is on the sick list today, suffering from a fall received Saturday evening.

Our public school was organized July 15, with Prof. Thomas as principal and Mr. Fletcher assistant. Four medals are offered to the patrons, and will be awarded on the last day of the school.

Mr. editor, we have no plans but simply want information. Our legislative district, composed of Morgan and Wolfe, agreed in the beginning of its existence to rotate, which is perfectly right, and if we are willing to "tote" fair with each other would not have it any other way. Now Wolfe gets the primary, this term, why should Morgan call a primary and make the candidates of Wolfe pay the expenses when we should wait and see who Wolfe wants and then vote for him to a man. If Wolfe wants Lykins, and the way the people near the line speak out in meeting we think they do, why make him spend \$75 or \$100 of his \$500 salary for nothing. The very same way if they want Mr. Rose. Wolfe's choice is the choice of WINGLESS.

Eel Settlers.

Miss Clara Pieratt will teach our school this year.

Elder Dunagin preached at this place last Sunday.

Miss Lucy Neal, of West Liberty, is visiting in town.

Mrs. Rachel Combs and Martha Thomas are visiting at St. Helens.

A. T. Pieratt last week sold to W. P. Sampson, a head of fine horses.

Mrs. Edwina O'Hair and Allen Fraser, of Illinois, are visiting at this place.

We understand that the teachers' institute will be held at this place this year.

Willie Pieratt and Miss Florence McMaster came down from Campton Sunday and returned Monday.

Volney Nickell is the most industrious chap in Morgan county. He rides about in the far side of the county from Monday morning till Friday evening, then returns to Eel, attends to his court day and night, and is back collecting tax Monday morning.

Letter From the Indian Territory.

REAR SPRINGS, I. T., July 7, '05.

Mr. COOPER—After having such a fine run I wish to write a few lines to the paper among papers, the H. G. R.

The people of the Indian Territory are greatly revived this beautiful Lord's day evening after having had such a fine rain.

We are needing rain on our crops, but the eternal Spirit knows when to send a blessing on the people.

The barbers of Rush Springs don't charge near as much for shaving a man as they did two months ago, their faces are not so long. Two months ago we had very dry weather, and the people thought nothing would be raised. But we are now in a season of rain. Farmers are thinking they will make from 60 to 70 bushels of corn per acre. Corn is now in good growing stage, and this rain will spoil every "mubble" in the field. If we get any "mubble" to feed our cows this winter we will have to have them shipped from some other country. The wheat and oats crops are failures here this year. Watermellons are good. We have 25 cents this summer. We will soon have ripe melons. The grass is fine on the prairie, and people can cut all the hay they want free of charge.

Well, I will tell you about our picnic at Morton, a town about ten miles south of Rush Springs. They had what is called a reunion. There were about 8000 people in attendance, including about 500 Indians. The Indians marched in

front of the white" men and were on horses, the old soldiers walking behind. They had a real nice time. The dinner came on, and you ought to have seen the Indians eat. They had barbecued beef, and the old squaws filled their dirty sacks with light bread and meat. After dinner the Indians had what they call a war dance. The white people had to pay them to dance. The thing they called music on was a piece of raw-hide stretched over a hoop, and they all sat down and began to sing and beat on the raw-hide, and the dance began. In the crowd I saw an old woman 102 years old. She had been a white woman who they captured many years ago, but she is as black as any of them now, and she won't talk a word of English. I was in their camp the day before the 4th. They were eating dinner, and were eating beef, interlarded with fat, and all. O my! how sickening it was.

They had speaking on the day of the 4th. The old chief was one of the orators, but he had to have an interpreter, and the interpreter was an Indian woman who had been taught the English language. The old Indian said they had just lately found out what the 4th of July was all about. He said he had heard of himself that day. He said white man was heep good. Then he said he wanted the territory to stand just as it was. It was good enough for him.

The Indians treat me mighty well when I am among them. I peddle among them considerable. They are the worst people to steal I ever saw. They can steal while a man is looking right at them, and then laugh at you. I could say a good deal more about them, but for want of space in the good old paper of Louisville, etc. the 4th inst., did me the honor of nominating me for Register of the Land Office, for which I am profoundly grateful, and doubly so because it means a man is looking right at them, and then laugh at you. J. M. AUSTIN.

To the Editor of THE HERALD:

In your issue of THE HERALD last week I see that the Populist convention held at Louisville, etc. the 4th inst., did me the honor of nominating me for Register of the Land Office, for which I am profoundly grateful, and doubly so because it means a man is looking right at them, and then laugh at you. Thanking the Populists again for the honor so graciously bestowed, I remain respectfully,

This is the time of year when teachers and trustees move in a mysterious way and their wondrous to perform. They should read the following and think twice before they act.

"SAC. 85.—No trustee shall be allowed to buy any teacher's claim, directly or indirectly, under the penalty of removal from office by the county superintendent. Any teacher who shall offer or give, directly or indirectly, any valuable consideration other than the services of the teacher for employing or for being a party to employing any teacher, shall be deemed guilty of bribery, and upon indictment and conviction thereof, shall be fined as provided by law for the punishment of bribery.

ENDORSE

ELECTROPOISE.

Rev. John I. Rogers, Danville, Ky. It is a mystery to me, almost a miracle. Rev. Z. Meek, Charlottesville, Ky. I have used the Electropoise for five years and find it invaluable a curative agent, especially in cases of indigestion, flatulency, and other ailments of the stomach and bowels. Rev. Robert Barrett, Louisville Baptist Seminary. Electropoise cured after all other remedies failed. Rev. W. W. Bruce, Hustonville, Ky. Electropoise cured my chronic habit. Rev. Geo. Means, Covington, Ky. In one night the Electropoise relieved brain congestion and vertigo.

We could fill this paper with similar reports, but think this sufficient to interest you in looking for book on Electropoise. Electropoise rented four months for \$10.00.
